

# Invoice quicker and get paid faster

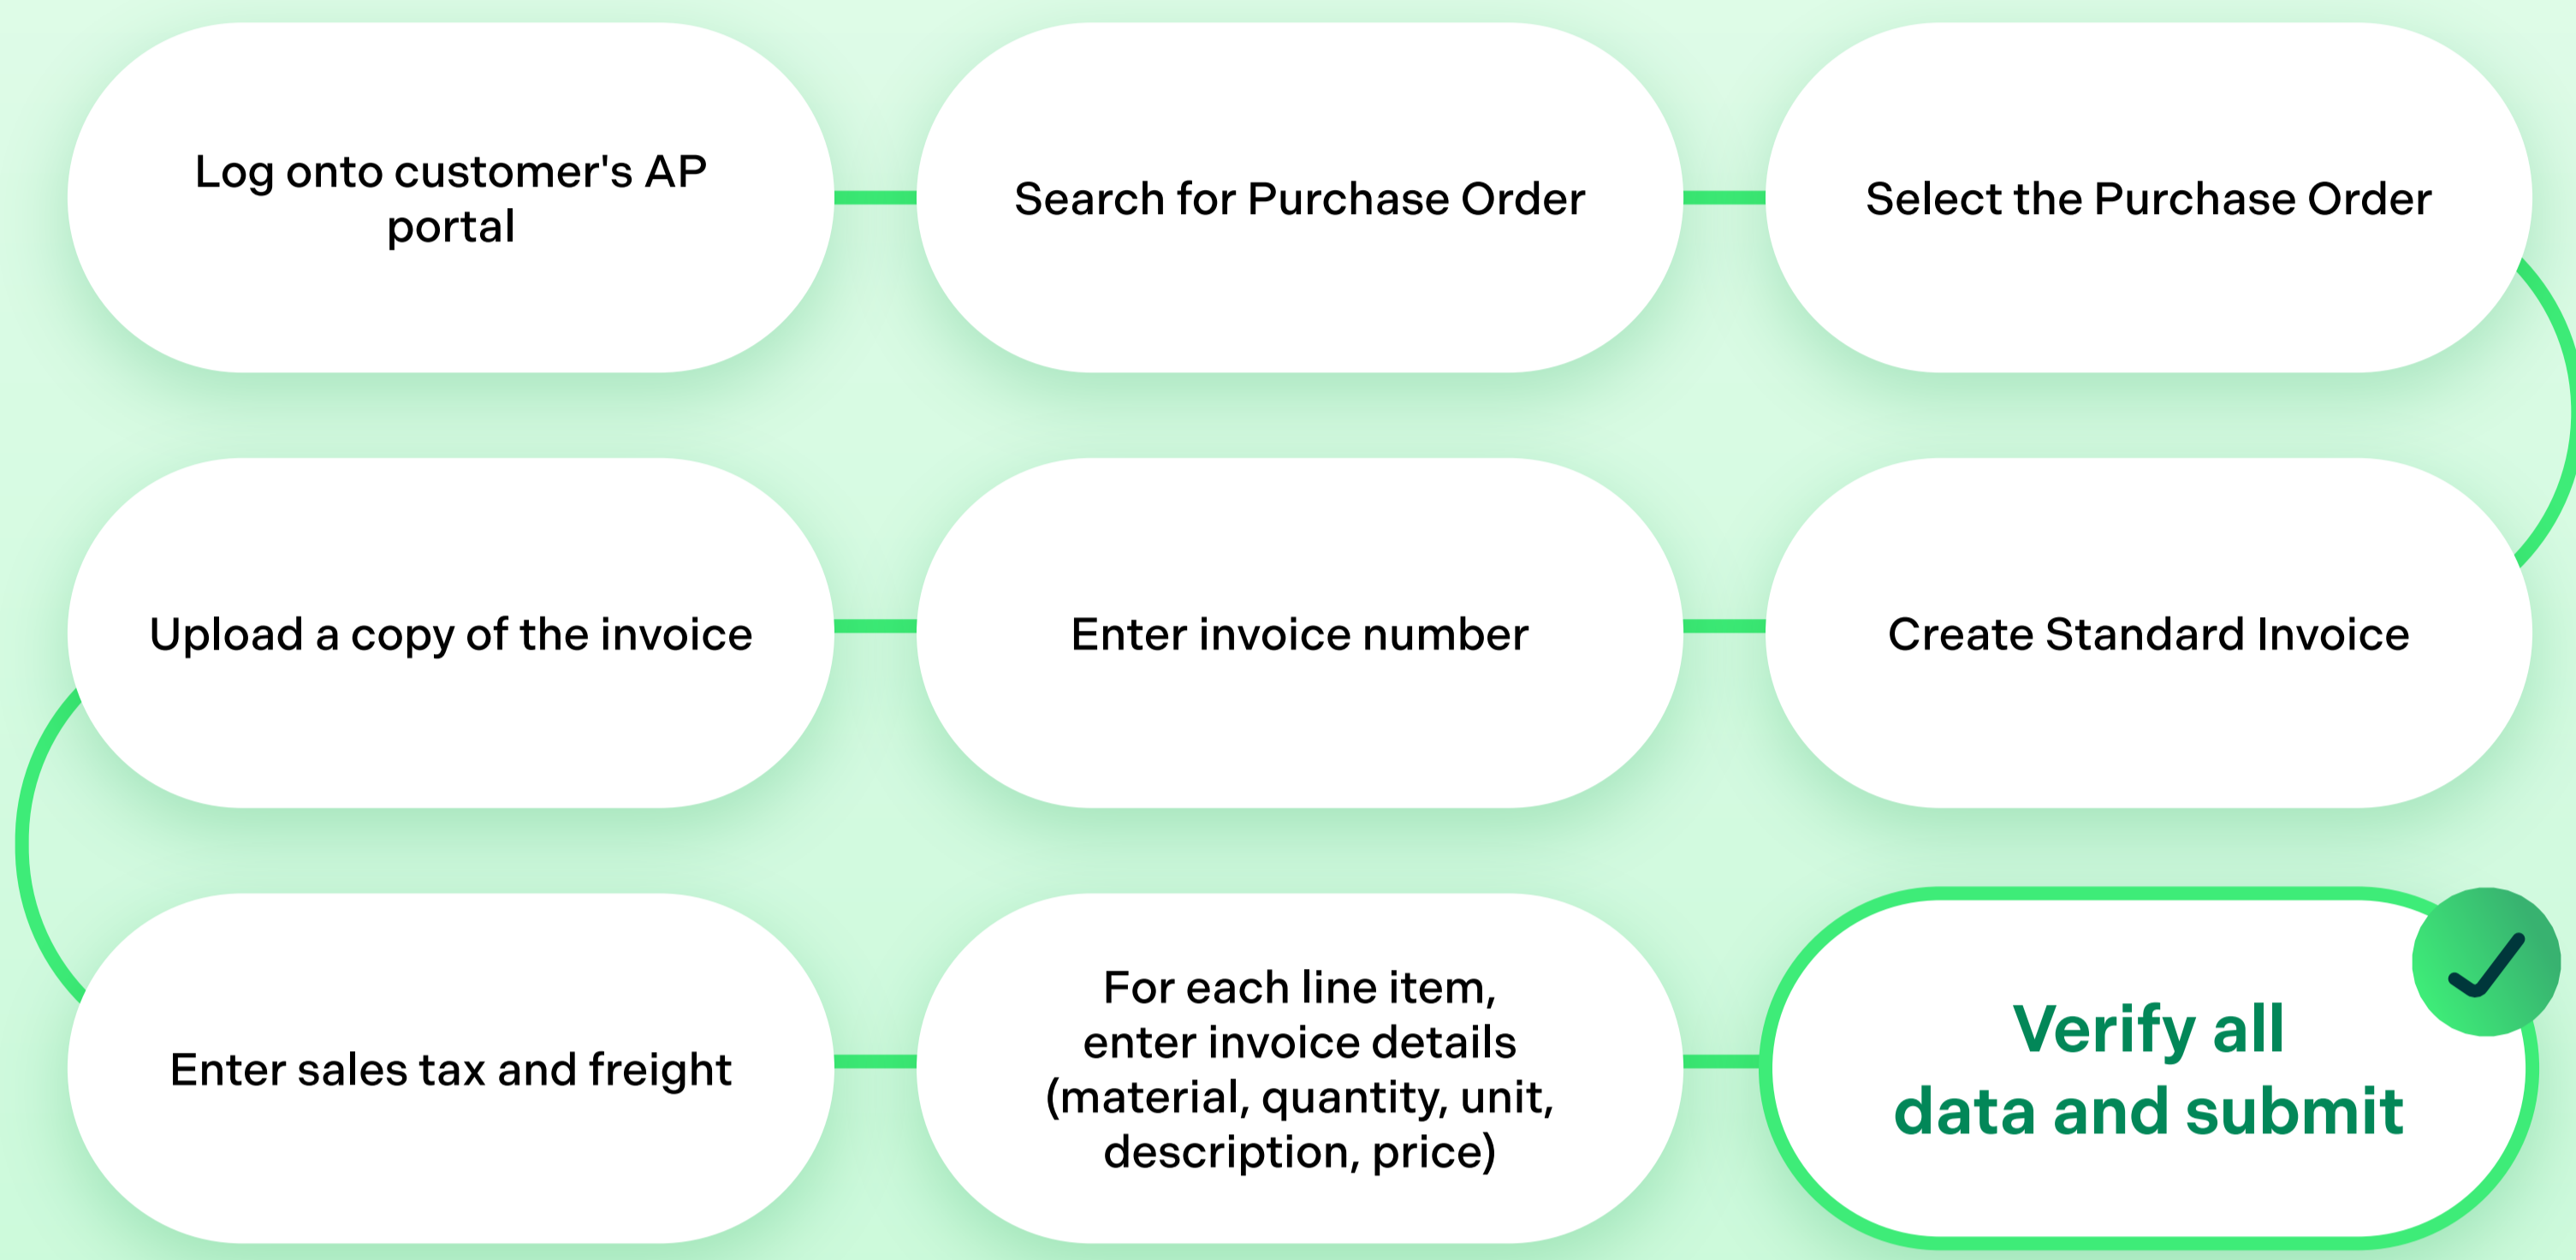

## With the Business Payments Network (BPN)

Save time and increase cash flow by enabling touchless invoicing and payments with your most demanding customers.

### Get unstuck from manual invoicing processes

The proliferation of buyer AP portals is putting a lot of stress on already stretched AR teams. Each of those portals has its own requirements and protocols, resulting in a huge amount of keystroking and manual management to submit and track the status of invoices.

#### TYPICAL STEPS TO ENTER AN INVOICE INTO AN AP PORTAL:

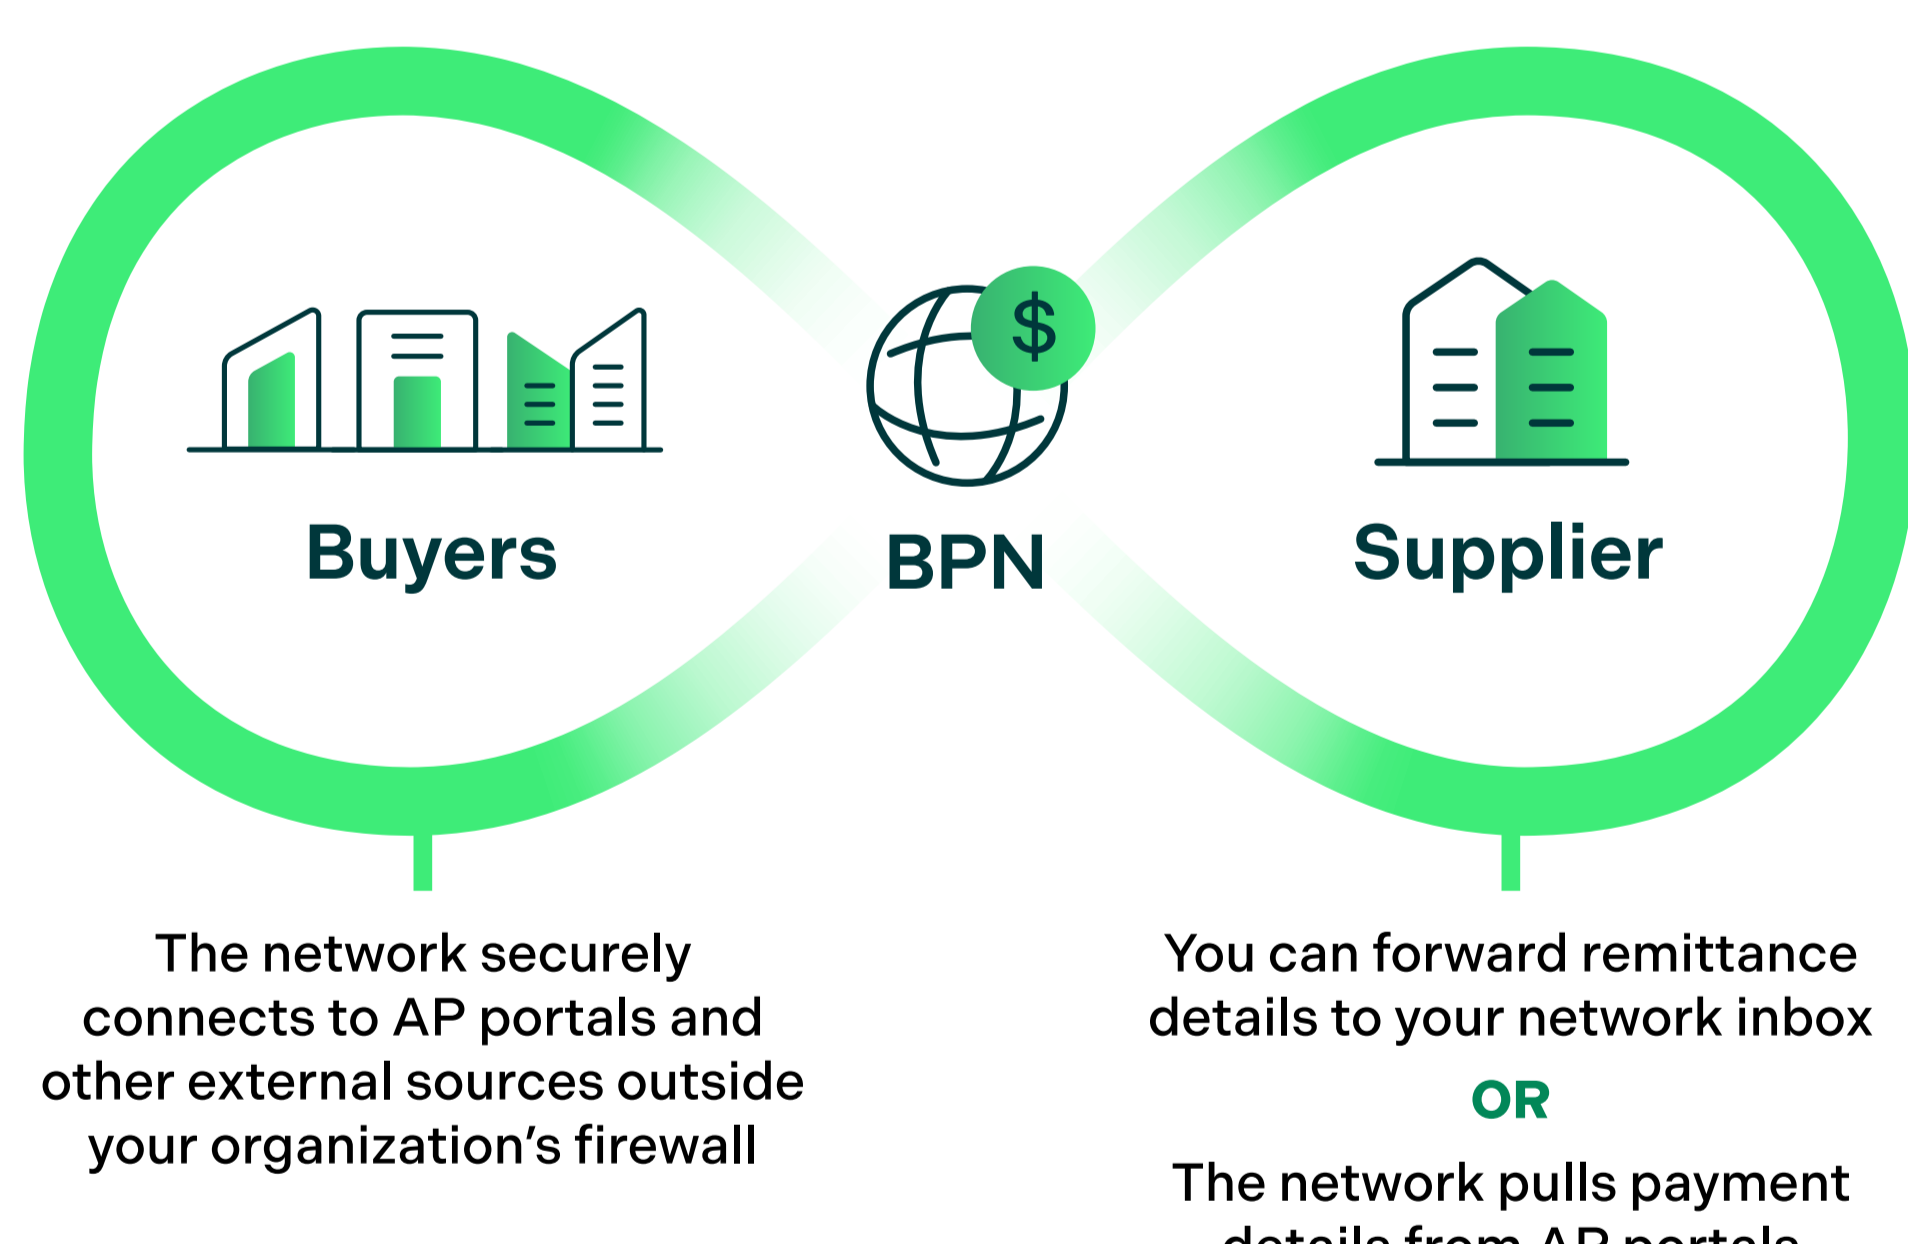

#### FREE UP YOUR AR TEAM AND SAY 'YES' TO YOUR BUYERS' PREFERRED INVOICING PORTALS WITH BPN. THE STREAMLINED STEPS OF THE INVOICING PROCESS WITH BPN:

### Automate card payment acceptance

Rather than opening emails from customers that pay via virtual credit card payments, BPN automatically retrieves and consolidates remittance information for you. Funds are transferred and remittance is transmitted without manual intervention.

### Get paid faster with Billtrust's Business Payments Network

- Billtrust BPN delivers invoices to **190+ AP portals**
- Provides **invoice status updates** at every stage – know when a buyer approves, disputes, cancels or pays any submitted invoice
- Automates acceptance and processing of **emailed credit card payments**
- **Virtual terminal** for payments by phone, including invoice remittance detail
- **Hosted payments page** to let buyers self-serve and enter card payments on a secure portal
- BPN Portal allows **real-time view** of invoices delivered and payments processed by BPN to supplement daily reporting
